over the last 20 months. It's just that additional complications have stacked up on that baseline at the moment, she said.

As it has with staffing at hospitals, schools and offices, the omicron variant has taken a toll on food production lines. Sean Connolly, the president and CEO of Conagra Brands, which makes Birds Eye frozen vegetables, Slim Jim meat snacks and other products, told investors last week that supplies from the company's U.S. plants will be constrained for at least the next month due to omicron-related absences.

Worker illness is also impacting grocery stores. Stew Leonard Jr. is president and CEO of Stew Leonard's, a supermarket chain that operates stores in Connecticut, New York and New Jersey. Last week, 8% of his workers - around 200 people - were either out sick or in quarantine. Usually, the level of absenteeism is more like 2%.

One store bakery had so many people out sick that it dropped some of its usual items, like apple crumb cake. Leonard says meat and produce suppliers have told him they are also dealing with omicron-related worker shortages.

Still, Leonard says he is generally getting shipments on time, and thinks the worst of the pandemic may already be over.

Weather-related events, from snowstorms in the Northeast to wildfires in Colorado, also have impacted product availability and caused some shoppers to stock up more than usual, exacerbating supply problems caused by the pandemic.

Lisa DeLima, a spokesperson for Mom's Organic Market, an independent grocer with locations in the mid-Atlantic region, said the company's stores did not have produce to stock last weekend because winter weather halted trucks trying to get from Pennsylvania to Washington.

That bottleneck has since been resolved, DeLima said. In her view, the intermittent dearth of certain items shoppers see now are nothing compared to the more chronic shortages at the beginning of the pandemic.

"People don't need to panic buy," she said. "There's plenty of product to be had. It's just taking a little longer to get from point A to point B."

Experts are divided on how long grocery shopping will sometimes feel like a scavenger hunt.

Dankert thinks this is a hiccup, and the country will soon settle back to more normal patterns, albeit with continuing supply chain headaches and labor shortages.

"You're not going to see long-term outages of products, just sporadic, isolated incidents — that window where it takes a minute for the supply chain to catch up," she said.

a day earlier this month, according to government data.

Kevin McConway, a retired professor of applied statistics at Britain's Open University, said that while cases are still rising in places such as southwest England and the West Midlands, the outbreak may have peaked in London.

The figures have raised hopes that the two countries are about to undergo something similar to what happened in South Africa, where in the span of about a month the wave crested at record highs and then fell significantly.

Biogen's initial launch price of \$56,000 a year for Aduhelm led to an increase of nearly \$22 in Medicare's monthly "Part B" premium for outpatient care, the largest ever in dollar terms but not percentage-wise. Medicare attributed about half of this year's increase to contingency planning for Aduhelm. Faced with skepticism over its medication, Biogen recently slashed the price to \$28,200, but Medicare enrollees were already on the hook for the \$170.10 premium. Health and Human Services Secretary Xavier Becerra has directed Medicare to reassess the premium increase.

Medicare officials stressed that they did not take cost into account in the coverage decision, but rather whether Aduhelm is "reasonable and necessary" for treating Alzheimer's patients enrolled in the program. "While there may be the potential for promise with this treatment, there is also the potential for harm," said Dr. Lee Fleisher, Medicare's chief medical officer. "This harm may range from headaches, dizziness, and falls, to other potentially serious complications such as brain bleeds." Clinical trials will attempt to determine the balance of risks and benefits, he said.
