DAILY COURT REVIEW

## Crypto

incentive for them," he said.

There are signs that crypto is going mainstream. Fidelity Investments, one of the nation's largest providers of retirement accounts, announced earlier this month it will start allowing investors to put Bitcoin in their 401(k) accounts.

And there are indications that the government is increasing scrutiny.

The Securities and Exchange Commission unveiled a plan last week that would nearly double the size of its staff focused on cryptocurrency oversight. Days later, the Justice Department indicted the CEO of a cryptocurrency platform and mining operation, alleging he orchestrated a "\$62 million global investment fraud scheme."

Meanwhile, members of Congress and the administration have raised concerns that Russian oligarchs could turn to cryptocurrency to evade U.S. sanctions put in place when Russia invaded Ukraine.

## Storm chasers

"Seeing a tornado is a life-changing experience," Tripoli said. "You want to see one instead of just talking about them. It's really just one of the excitements of life. You've got to take chances and go out there and go after your passions. It's no different from rock-climbing or deep-sea diving."

The storms themselves present dangers to inexperienced chasers who get too close. They can get hit by debris, struck by lightning or worse. Tripoli said he decided to stop teaching his storm chaser class and taking students into the field in the early 1990s after university officials stopped insuring the trips.

Nature isn't the only threat. Storm chasers spend long hours on the road traveling from state to state like long-haul truckers, inviting fatigue. When they catch up to the storms, they can often keep their eyes on the skies instead of the road, sometimes with deadly consequences. Tripoli said he would warn students in his storm chaser class that the most likely way they would get hurt is in a car crash.

## Reckoning

Tribes will have to navigate federal laws on repatriation to take Native children who died and are buried at former boarding school sites home, if desired, and might have no recourse to access burial sites on private land. The causes of death included disease, accidental injuries and abuse.

Boarding school survivors also might be hesitant to recount the painful past and trust a government whose policies were to eradicate tribes and, later, assimilate them under the veil of education. Some have welcomed the opportunity to share their stories for the first time.

Haaland, the first and only Native American Cabinet secretary, has the support of President Joe Biden to investigate further. Congress has provided the Interior Department with \$7 million for its work on the next phase of the report, which will focus on burial sites, and identifying Native children and their ages. Haaland also said a year-long tour would seek to gather stories of boarding school survivors for an oral history collection.

A bill that's previously been introduced in Congress to create a truth and healing commission on boarding schools got its first hearing Thursday. It's sponsored by two Native American U.S. representatives – Democrat Sharice Davids of Kansas, who is Ho-Chunk, and Republican Tom Cole of Oklahoma, who is Chickasaw.

"Working with the Interior, knowing that there are representatives in the federal government who understand these experiences not just on a historical record but deep within their selves, their own personal stories, really makes a difference," said Deborah Parker, chief executive of the National Native American Boarding Schools Healing Coalition and a member of the Tulalip Tribes.

which affects even those who aren't currently buying. Rents have increased sharply as well.

Construction challenges and price increases for essential inputs will keep new homes pricey and discourage building lower-cost residences which typically provide smaller profit margins. Interest rates will likely continue to rise as the Fed battles inflation, and there are notable near-term headwinds. There are early signs that the market may be calming down to some degree as people give up or are "priced out" of the market, but unfortunately, it's unclear that relief is coming any time soon. Stay safe!
