It remained unclear how likely either scenario was.

"All we can say at this point is that we are reviewing the ruling and considering next steps," NOAA Fisheries spokesman Michael Milstein said in an email.

Officials in April canceled commercial and most recreational king salmon fishing off California and much of Oregon for the second time in 15 years after the fish returned in near record-low numbers to California's rivers.

Meanwhile, people who work on the boats, as fish processors or even in support businesses such as fuel stations and grocery stores in Southeast Alaska are waiting to see if the season will occur or whether they must find work elsewhere for the summer.

"There is so much stress in the lives of every family that relies on this industry," Behnken said. "We're in a real quandary until we know whether we can have a fishery."

Emma Helverson, executive director of Wild Fish Conservancy, said she was sympathetic to the communities' plight and hopes the government will make emergency funding available to support them. But she also said the industry had long overharvested the fish, also known as Chinook.

"Chinook populations are crashing coast-wide, and we need a coastal recovery effort," she said.

King salmon are the largest and priciest of the Pacific salmon species, and the Southeast Alaska troll fishery provides them to restaurants and grocery stores around the world.

They also make up the bulk of the diet for endangered orcas in the waters of the Salish Sea between Washington state and Canada. Due to overfishing, dams, development and pollution, chinook runs in the Northwest are at a small fraction of their historical abundance, and the local orca population has suffered in turn. Just 73 whales remain, inbreeding is a severe problem, and scientists are warning of extinction.

Buffett

Buffett and is steeped in Berkshire's unusual culture of letting companies it owns largely run themselves. Olson said he thinks preserving that culture of trust will be the most important part of Abel's job running the company.

"He has had a lot of what I would call grooming and practice," Olson said.

Berkshire has said for years that Buffett's job as chairman, CEO and chief investment officer will be split into several parts when he is gone. Berkshire finally designated Abel as the CEO successor two years ago after Munger hinted at it during an offhand comment at the annual meeting.

Buffett has said he believes his oldest son, Howard, who already serves on Berkshire's board, would make an ideal chairman to help protect the company's culture.

Berkshire has hired two other investment managers who oversee a small part of the company's portfolio now. Olson said Abel will have to decide how big a role those two will play in managing Berkshire's investments in the future.

Berkshire owns an eclectic assortment of businesses including Geico and other major insurers, a number of large utilities, BNSF railroad and a range of retail and manufacturing businesses. Berkshire also holds major stakes in companies like Apple, Bank of America, American Express, Coca-Cola and Chinese electric car maker BYD.
