unpopularity, persistently high prices and the fallout from the war in Iran, border security has remained a relative bright spot in Trump's polling numbers, with about half of Americans saying they approve of his performance there.

But some experts have questioned the need for such a large military presence. They suggest it's less about effective strategy and more about political theater.

Illegal crossings have plummeted due in large part to asylum restrictions that began before Trump returned to the White House. Meanwhile, a large percentage of the fentanyl, cocaine and heroin seized along the border was being smuggled in cars and trucks passing through checkpoints, not the areas in between.

David Shirk, a University of San Diego political science professor, said the Trump administration wants to remind voters it's been very aggressive on border security.

"I don't dispute there's some benefit to having personnel in areas at risk for people smuggling and drug trafficking," Shirk said. "But the vast majority of that is now happening at ports of entry."

Dessa Bergen-Cico, a professor of public health at Syracuse University who studies drug trafficking, said street prices for cocaine and fentanyl are still low, suggesting the drug flow remains unimpeded.

But Army Maj. Gen. Curtis Taylor, who commands the military's southern border task force, said the work has been vital and effective, particularly for targeting human trafficking.

directly. But in a statement released late Sunday, her lawyers denied she had done anything wrong and claimed that the money she was seeking from a Trump donor was payment for services — public appearances and speaking engagements that predate her ambassadorial nomination — that had not been paid.

The lawyers, David Schwartz and Jesse Binnall, also rejected allegations of impropriety related to Guilfoyle's travel on private planes, saying that before every such trip she "sought, obtained and followed State Department guidance and followed the Department's travel regulations," they said.

Rubio defended Guilfoyle and berated journalists who asked about her

After defending Guilfoyle following the first report, Rubio has declined to comment publicly on the growing allegations. Last week, Rubio said: "Our ambassador has been a strong ambassador here."

But after another report appeared later, Rubio on Thursday before leaving Athens berated journalists for asking about the allegations, saying he didn't know if they were true and that he would not respond if he could not confirm them.

"You guys walk around thinking that because some source told you something and you reported it, it's the gospel. It's not the gospel. It's not the gospel for me. That's not the way we do things," Rubio said at the foot of his plane as Guilfoyle, who was there to see him depart, looked on.

— gasoline — in three vans at the site, but no explosives.

Seven men in their 20s have been arrested and released on bail under investigation. In all, more than 50 people have been arrested over Iran-linked plots in the past year, McCallum said.

Prime Minister Andy Burnham said Monday that the apparent plot was "almost certainly" directed by Iran's Revolutionary Guard, or IRGC. Iran has denied involvement, although it has previously said that it considers any base used to attack its territory a legitimate target.

The U.S. pulled its bombers from RAF Fairford after the incident, and the Trump administration said it believed the base faced Iranian threats intended to kill as many American troops and destroy as many U.S. planes as possible.

British officials have not confirmed that, and McCallum said that, in the U.K., Iran has so far used low-level criminal proxies who lack the capacity to mount a sophisticated large-scale attack. But he said Iran's IRGC has shown stronger capabilities in countries closer to Iran, "so it would be foolish for a person in a role like mine to discount the possibility."
